

Centre for Community Outreach and Care

Report to Health and Human Services Faculty Council

April 20, 2015

Ashleigh Martinflatt

It has been an excellent year consisting of a robust 13 member committee, and additional agencies want to partner with us.

Six students went through this year and it is hoped that 12 will next year.

The goal is to build relationships in the Harewood community and it appears that the program is successful.

The brochure is effective, advertising garage service, hair service and dental service.

Once community residents take advantage of these, they will be able to see what else the university offers.

The Dean will be recruiting a group to review this ad hoc centre as it is a policy requirement.
